Determining Header Selection Guide

OSHA and ANSI requires signage to indicate and define specific hazards that, without identification, may lead to injury or death. Select your sign with the header that indicates the degree of hazard in your application.

Use **DANGER** to indicate an immediate hazard which has a high probability to severe injury or death.

Use **WARNING** to indicate a potentially hazardous situation which, if not avoided, can result in serious injury or death.

Use **CAUTION** to indicate a potentially hazardous situation which may result in minor or moderate injury, but not death.

Use **NOTICE** to provide general information needed to avoid confusion.

These and similar headings are used with information about housekeeping, first aid, health, medical equipment, sanitation and general safety.

» Guide to Sign Legibility

Viewing Distance	Letter Height
30'	3/4"
40'	1"
55'	1 1/4"
65'	1 1/2"
75'	1 3/4"
85'	2"
115'	2 1/2"
135'	3"
150'	4"
200'	6"
350'	8"

Determine the viewing distance for your sign, then contact our Inside Sales Team and we'll do the rest!
