

# BRUSKE SQUEE-GEES™

THE MOST REVOLUTIONARY WIPING BLADE ON THE MARKET... Bruske Squee-Gees, as well as Bruske Floor and Window Squeegees are all designed and specifically manufactured to suit a wide variety of uses within all types of businesses. Bruske's Squee-Gees are quality-made, high performance, completely disposable wiping blades that are available at a low, low price.

The revolutionary design of the Bruske Squee-Gee makes conventional, metal-backed blades obsolete because of the innovative plastic extrusion that eliminates the need for a metal channel or support. Together with the special feature of the Bruske "Miracle-Tip" handle, the Bruske Squee-Gee becomes instantly changeable and completely disposable.

Bruske provides its customers with a complete and thorough line of quality floor care, window care and specialty cleaning care products that meet any or all of their requirements.

Bruske Squee-Gees and Bruske Floor and Window Squeegees outperform, last longer and cost less than other conventional specialty care products.

THE COMPLETELY DISPOSABLE BRUSKE SQUEE-GEE... is a light-weight, high performance, completely disposable, extruded plastic wiping blade that is now available in both straight and curved blades. Both blade styles feature a rigid plastic backing that is bonded to a flexible high-quality plastic wiping blade to eliminate the need for a metal channel or support.

Straight Squee-Gees require squeegee-to-handle adapters. Straight Squee-Gees, squeegee-to-handle adapters and "Miracle Tip" handles should be ordered as separate items.

Curved Squee-Gees come complete with squeegee-to-handle adapter built-in. It is not necessary to order adapters. Order "Miracle-Tip" handles separately.

Order #6032 hardwood handle, #6132 all steel handle, or #6332 fiber-glass handle.

Squee-Gee Size	18"	24"	30"	36"
Straight Squee-Gee No.	49518	49524	49530	49536
Curved Squee-Gee No.	49618	49624	49630	49636

For Straight Squee-gees, a #49504 squeegee-to-handle adapter should be ordered for each handle.
