

Over-the-Glass Protective Eyewear

We recognize that many customers have a need for over-the-glass protective eyewear, either for their employees who wear prescription glasses every day or plant and/or workplace visitors who must be protected.

NEW for 2014

OVR-Spec™ III

Ultra-Lightweight and an Economical Solution for plant tours and worksite visitors

Only 1 ounce (32 grams), ultra-lightweight OVR/over specs.

Fits over most medium sized prescription eyewear (up to 144 mm). Economical glass that is ideal for use as visitor specs.

Adjustable length drop temples that “hook” behind the ears prevents slipping during work activity for better protection.

Frame design maintains a space between the prescription and safety lens, Expensive prescription lenses do not rub or scratch each other.

AVAILABLE LENS TINTS

Product. No.	Frame Color	Lens Tint	Lens Coating	Temple Style
SG-57C	Clear	Clear	Hard Coat	Drop Temple w/Adjustable Length
SG-57G	Grey	Grey	Hard Coat	Drop Temple w/Adjustable Length

OVR-Spec™ II

Our most stylish eye safety alternative for everyday use

Great protection with extended top, bottom and side shields Ballistic rated safety glass with built-in side windows.

Sleeker design More contemporary styling, fits over most medium-sized prescription frames up to 5" (145mm) wide. Maintains a space between the RX and safety lens to avoid rubbing/scratching.

Superior comfort Self-adjusting nose bridge and rubber temple tips makes for great comfort.
