

Anti-Impact Glove Liner

Utilizing Visco-Elastic Polymer (VEP) Padding to protect the palm, fingers and thumb Provides Impact and Shock Protection

- Made of 4-way stretch polycotton Lycra material offering optimum breathability and comfort
- Contoured VEP 1/8" padding provides excellent protection from impact and shock
- Full finger design for best hand protection
- Recommended to be worn under work glove to optimize durability
- Other Variations Available:
 - #501-00 - fingerless design
 - #502-00 - fingerless with thumb web padding
 - #611-00 - full finger with thumb web padding
 - #703-00 - fingerless with wrist support
 - #712-02 - with leather wrist support
 - #BG601 - anti-vibration Air Glove® liner

Model #601-00

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

In Conformance with Norms

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003

General requirements for gloves

SIZING: For sizing, measure the circumference of the hand at the base of fingers.
