

# **Compression Management**

Elastic = Cohesive = Compression = Conforming = Specialty

# Unwrap the power of our compression and fixation bandages.

Healthcare professionals across the continuum of care have relied on the superior quality and value of HARTMANN **Compression Management** for more than 60 years. This outstanding legacy has endured because of our extensive experience in, and knowledge of, the healthcare environment and evolving treatment protocols, as well as a strong commitment to superior customer service.

Our expertise in **Compression Management** positions us as the leading source for bandage products. Healthcare professionals depend on our bandages to treat a variety of orthopedic, venous and lymphatic conditions because of

their ability to deliver accurate stretch, compression, comfort and support for optimal healing. From basic bandage products including **Deluxe LF** and **Flexicon**, to our more highly specialized products such as **FourPress** and **Esmark LF**, HARTMANN bandages are cost-efficient and provide superior performance. We invite you to learn more about our **Compression Management** bandages as well as our Traditional Wound, Advanced Wound and Incontinence Management products online at **hartmanninfo.com** or by calling Customer Service at **1-800-243-2294**.

### **ELASTIC BANDAGES**

Deluxe® LF and Deluxe® 480® LF Latex-free reinforced elastic bandages

- Orthopedic grade bandages woven with the finest quality yarn for total patient comfort
- Superior strength and consistent elasticity, support and compression
- Resist deterioration from ointments and medication and withstand numerous washings and sterilization to provide continued quality elasticity and compression
- Ideal for limb support resulting from injury, illness or surgery
- For use in treating varicosities, edema, poor peripheral circulation, tendonitis, tenosynovitis, sprains, strains, fracture reduction and amputation compression

Contex® LF Latex-free reinforced elastic bandage

- Premium grade woven bandage with high cotton content for cool and comfortable patient wear
- Provides controlled stretch for consistent support
- Ideal for securing splints, dressings, ice packs and other devices
- For use in treating sprains, strains, tendonitis, torn or injured ligaments and edema reduction

REB® LF and Econo-Wrap® LF Latex-free reinforced elastic bandages

- Standard grade lightweight all-purpose woven bandages that are cool and comfortable to wear
- Bandage weave offers balanced stretch and compression
- Ideal for general compression and securing of splints, dressings and ice packs
- For use in securing dressings with compression and in treating varicosities, sprains, strains, torn or injured ligaments or in the prevention of re-injury to weakened joints

**CEB**® Latex-free cotton elastic bandage

- Premium grade bandage woven with quality cotton yarn to form a porous bandage for cool and comfortable wear
- All-cotton weave and non-raveling feathered edge do not constrict for proper treatment and patient comfort
- Withstands washing and sterilization while maintaining quality elasticity
- For use as general support and compression, post-treatment care of bone fractures and dislocations and in treating sprains, strains, tendonitis and tenosynovitis

EZe-Band® LF Latex-free self-closure elastic bandage

- Orthopedic grade knitted bandage with unique construction that provides superior absorbency and breathability
- Double closure delivers maximum control and consistent compression
- Front closure anchors bandage quickly and easily on the first wrap, while end closure secures the bandage at any point without pins, clips or tape
- Comfortable to wear and durable for repeated use
- For use in applications requiring controlled, consistent compression and support

Shur-Band® LF and Shur-Band® Ice Wrap LF Latex-free self-closure elastic bandage and ice wrap

- Premium grade bandages knitted with quality yarn to provide superior, consistent support and compression
- Self-closure flap fastens anywhere on the bandage for quick, easy and secure use without pins, clips or tape
- Ice Wrap is designed with sewn pouch to hold standard size instant use or reusable hot and cold packs
- For general support, compression or securing, and in treating varicosities, sprains and torn ligaments

# **Esmark LF**Latex-free bandage

- Sterile and individually wrapped for use in surgical environments
- Provides maximum and consistent compression to extremities for exsanguination prior to surgery
- Provides consistent 400% elongation for ideal compression and ease of application
- For use in surgical procedures especially joint replacement

### **COHESIVE BANDAGES**

### Medi-Rip® LF Latex-free self-adherent compression bandage

- Premium grade cohesive bandage that adheres only to itself, never skin or hair, without pins, clips or tape
- Provides superior support and compression and conforms easily to body contours
- Woven of 99% cotton yarn, it is absorbent, lightweight and comfortable to wear
- Hand-tears to desired length for easy application
- For use in non-slip support and compression applications, edema reduction, relief bandaging of joint and other difficult-to-wrap areas, and as a replacement for adhesive tape and bandages in post-fracture treatment

### Co-Lastic® LF Latex-free cohesive elastic bandage

- Premium grade cohesive bandage that adheres to itself, never skin or hair, without pins, clips or tape
- Provides controlled, consistent compression and conforms to difficult-to-bandage areas
- Hand-tears to desired length for easy application
- For use in all applications requiring securing, protection, support and compression

## **Co-Wrap**® Self-adherent bandage

- Standard grade cohesive bandage that adheres only to itself, never skin or hair, without pins, clips or tape
- Provides light, consistent compression and securing capabilities
- Cool, comfortable and gentle for patient comfort
- Ideal for delicate or traumatized skin and in wet environments when tape cannot be used
- For use as a secondary bandage, a securing bandage for I.V.s and for overwrapping primary dressings

### Peha-haft® LF Latex-free cohesive conforming gauze bandage

- Premium grade cohesive gauze that adheres only to itself, never skin or hair, without pins, clips or tape
- Offers combination of light absorption, gentle support and conformability
- Soft, Latex-free, Chlorine-free and Acrylate-free for reduced sensitivity on delicate or traumatized skin
- Superior cohesiveness, remains secure, and uses fewer materials and layers
- Worn comfortably for long periods with less risk of rolling or constricting
- For use as a first aid dressing, for light and consistent compression and to secure primary dressings, splints, I.V.s, leads and catheters

### **COMPRESSION BANDAGES**

# TwoPress®, ThreePress® and FourPress® Latex-free compression bandage systems

- Safe and effective compression therapy for venous leg ulcers and related conditions
- Produces sub-bandage pressure of 30-40 mmHg at the ankle when wrapped as indicated
- Provides effective, sustained compression for up to seven days when applied as directed
- Unique padding bandage in TwoPress provides comfort and compression

# **LoPress**® Latex-free inelastic compression bandage

- Premium grade inelastic weave or short stretch reduces risk of constriction while providing maximum resistance
- Designed for repeated use, sterilization and numerous washings
- 100% cotton for cool and comfortable wear
- Ideal in treating lymphedema

## Comperm® LF and Comperm® - PD LF Latex-free tubular bandage and padded tubular bandage

- 100% cotton, seamless, knit tubular construction for 360 degree compression and support
- Ravel-free, run-free cutability for ease of use for joint/appendage openings
- Compression and support remain consistent after reapplication
- Secures without clips or tape
- For use in treating soft tissue injuries, edema reduction, sports injuries, post-burn scarring, sprains, strains and for post-cast support, securing wound dressings and covering zinc-oxide or plaster dressings

### **COMPRESSION BANDAGES** - continued

## Econo-Paste® and Econo-Paste® Plus Calamine

Latex-free conforming zinc-oxide paste bandages

- Vacuum-sealed foil pouch is easy to open and ensures a longer shelf life
- Innovative plastic core for easy application
- Made of lightweight cotton gauze that conforms easily to the body
- Non-hardening zinc-oxide paste soothes inflammations, rashes, ulcers and related conditions

Flexi-Tube® Latex-free tubular gauze bandage

- Provides protection to delicate skin
- Efficient cutability for ease of use for joint/appendage openings
- For use in protecting and securing dressing applications
- For use as a first layer for lymphedema bandaging

### **SPECIALTY BANDAGES**

- For use as cast padding protection under orthopedic braces and splints
- Latex-Free Orthopedic Felt may be used as foot or arch pads
- Foam Rubber may be used as protection for blisters and pressure points when immobility is essential

## Non-Woven Padding Bandage

Latex-free padding and protection

- Provides protection to delicate and traumatized skin
- For use as a second layer for lymphedema bandaging
- For use in any application where additional protection is required
- Not indicated for general casting

### **CONFORMING BANDAGES**

Sterilux® Bulky Latex-free bulky gauze bandage

- 100% premium woven cotton
- High yarn count for increased absorbency
- Open weave provides increased patient comfort
- Six-ply construction offers extra padding and protection
- Finished edges reduce lint and loose ends
- Ideal for use in post-surgical and wound bandaging, especially difficult-to-dress areas

### **Conco**® Latex-free conforming stretch bandage

- Soft polyester fabric for patient comfort
- Holds dressings securely in place without slipping
- Uniform weave creates a strong bandage that clings to itself and provides light compression
- Finished edges minimize lint and unraveling
- Conforms to difficult-to-dress body contours

Flexicon® and Flexicon® Clean Wrap Latex-free conforming stretch bandages

- Soft polyester fabric for patient comfort
- Durable and holds dressings securely in place without slipping
- Unique structure allows the bandage to cling to itself
- Uniform knitting creates a strong bandage that provides light compression and conforms to difficult-to-dress areas
- Finished edges minimize lint and unraveling
- Blue application guideline ensures consistent wrapping
