

STAINLESS STEEL TABLES

Models: SS, SB

Heat Seal's dependable, heavy duty stainless steel tables are built to last with guaranteed workmanship. The strong, durable frame has all welded seams with an under framed table top for a reinforced, rugged construction. Prep tables are available in sizes ranging from 24"-36" wide, and 36"-120" long. Available with or without an under shelf, with or without a 6" backslash.

NSF Listed and USDA Approved makes Heat Seal's stainless steel tables easy to clean and sanitary. The NSF Listed Poly-board top option is available for sanitary cutting and chopping. The Poly top, can be used on both sides and is easily removable for fast and thorough cleaning.

Heat Seal's Stainless Steel Work Tables provide superior support and stability with 1 1/4" diameter framing. The tables also make leveling on uneven floors easy with metal levelers on the 1 5/8" diameter legs.

FEATURES

- Constructed entirely of stainless steel for greatest durability and easiest sanitation
- Completely welded frames provide reinforced rugged construction
- 1 5/8" diameter legs and 1 1/4" square framing for greater strength
- Square tube under framing provides superior support and stability
- Metal levelers on legs provide easy, reliable leveling
- Guaranteed Workmanship
- Easy To Clean
- Standard tables ship in 5 days or less on RAPIDHS
