

Acid, Chemical Resistant & Handheld Series

ACID & CHEMICAL RESISTANT TANKS FEATURE:

- Poly molded, heavy-duty thick wall polyethylene tank design
- Funnel top for environmentally-friendly filling
- Braided reinforced chemical resistant hose for extra strength
- Designed with an internal pressure release valve that will not allow pressure to exceed 55 psi, therefore, no external pressure relief valve is needed, which is vulnerable to breakage
- Lifetime tank warranty*

ACID SERIES FEATURES:

- Adjustable pin to cone and optional fan spray tip
- Heavy-duty stainless steel pump rod
- Specially designed heavy-duty valve
- Additional Celcon tips with variable output available
- No metal parts come into contact with acid
- Valve locks on for continuous spraying

Viton® is a registered trademark of
Dupont Performance Elastomers.

CHEMICAL SERIES FEATURES:

- Celcon fan spray tip, brass fan tip kits also available
- Viton® parts for excellent chemical resistance
- All brass XR gun
- Heavy-duty metal pump rod
- Additional Celcon tips with variable output available
- Adjustable pin to cone tip available

LT-1.5

- Heavy-duty translucent tank to see liquid level
- Metal pump rod
- Large volume pump requires fewer pump strokes
- Economically priced

LT-1.5A

- 1.5 Liter capacity
- No metal parts come in contact with acids
- Adjustable nozzle pin to cone and straight stream

QT-1

- 1.5 Quart translucent tank to see liquid level
- Steel pump rod
- Extended nozzle lance
- Adjustable brass nozzle
- Chemical resistant gaskets
- Other configurations available
- Available with acid-resistant parts

ACCU-SPRAY I

- 6' coiled hose
- Half liter capacity
- Includes adjustable fine spray tip
- Optional tips available
- Highly efficient pump
 - Heavy duty design
 - Convenient carry pouch included

Model shown with optional fan spray tip
