## Determining Header Selection Guide

OSHA and ANSI requires signage to indicate and define specific hazards that, without identification, may lead to injury or death.

## PELIGRO

CUIDADO Select your sign with the header that indicates the degree of hazard in your application.

DANGER

## I DANGER

Use DANGER to indicate an immediate hazard which has a high probability to severe injury or death.

Use WARNING to indicate a potentially hazardous situation which, if not avoided, can result in serious injury or death.

## CAUTION

NOTICE NOTICE

SAFETY
FRST
EMERGENCY

Use CAUTION to indicate a potentially hazardous situation which may result in minor or moderate injury, but not death.

Use NOTICE to provide general information needed to avoid confusion.

These and similar headings are used with information about housekeeping, first aid, health, medical equipment, sanitation and general safety.
