

➤➤➤ Calf - Knee - Thigh Supports/Immobilizers

Used for varying degrees of support and/or immobilization in the management of sprains, ligamentous injuries, strains, fractures, and for recuperative stages for partial or total arthroplasty. In some instances they are used in place of casts or immediately following cast removal until healing is complete.

Snoopy® Knee Immobilizer

4702

Poly/cotton bound to foam with soft flannel lining. One each medial and lateral stay and three contoured posterior stays are all removable. Hook and loop closure. Colorful poly/cotton material with Snoopy® print, pediatric support. 12" long

Size: (Circumference 6" Above and 6" Below Knee)

UN	10" to 14"
----	------------

Wrap-Around Elastic Knee Support

3602

12" long wrap around style knee with hook and loop closure, two each medial and lateral stays. Beige knitted elastic with dual-tension segment around knee, open patella.

Size: (Circumference 6" Above and 6" Below Knee)
