

Elbow w/Gel Insert

1956

Provides lightweight, soothing support. Comfortable latex free elastic. Contoured visco elastic insert provides consistent compression, massages muscles and tendons while supporting the elbow. Fits either elbow.

Size: (Elbow Circumference)

SM	9"-10"
MD	10"-12"
LG	12"-14"
XL	13"-16"

EPILOCK™

1013

Unique patented two strap system. Strap near elbow supports deeply buried extensors and works with forearm strap to provide exceptional support and pain relief. Non-elastic straps are worn comfortably snug. When muscular force is applied, the extensor muscles automatically enlarge causing the straps to tighten. As the extensors relax, the straps return to a comfortably snug condition. Lightweight, won't slip and completely washable.

Size: (Measure Around Forearm)

SM/MD	7"-12"
LG/XL	12"-15"

Scott Neoprene Supports are made of the finest quality neoprene available. Comfort, support, flexibility, and heat retention are primary characteristics of neoprene. Heat retention helps soothe pain, encourages circulation, and helps make soft tissue pliable, less prone to injury.

N1-nylon one side
N2-nylon two sides
P1-plush one side

Neoprene Tennis Elbow Strap

9030 Plush/Rubber
Back 1/8"

9032 Plush/Nylon 1/8"
