

**Detecta Pro products are metal detectable, helping you achieve Total Quality Assurance. Don't risk foreign object contamination in your final product.**

## Detectable Pens

All pen bodies are produced from a specially formulated polypropylene mix, containing a non toxic detectable additive. Pens are detectable and rejectable by metal detection systems. Bodies are shatter proof, and will not splinter into small segments. Pens are available in different body colors making it ideal for isolation to specific production areas to help eliminate allergen transfer.

**Rpen** - the retractable Rpen has a pressurized ink cartridge for smooth ink flow. It is suitable for cold environment applications and writing in any position.

**Model# Rpen available in: Blue, Green and Red Body. Black and Blue Ink**

**Rjpen** - the retractable Rjpen is an economical retractable pen that uses a standard ink cartridge.

**Model# Rjpen available in: Blue, Green and Red Body. Black, Blue, Green and Red Ink**

**Spen** - stick pen.

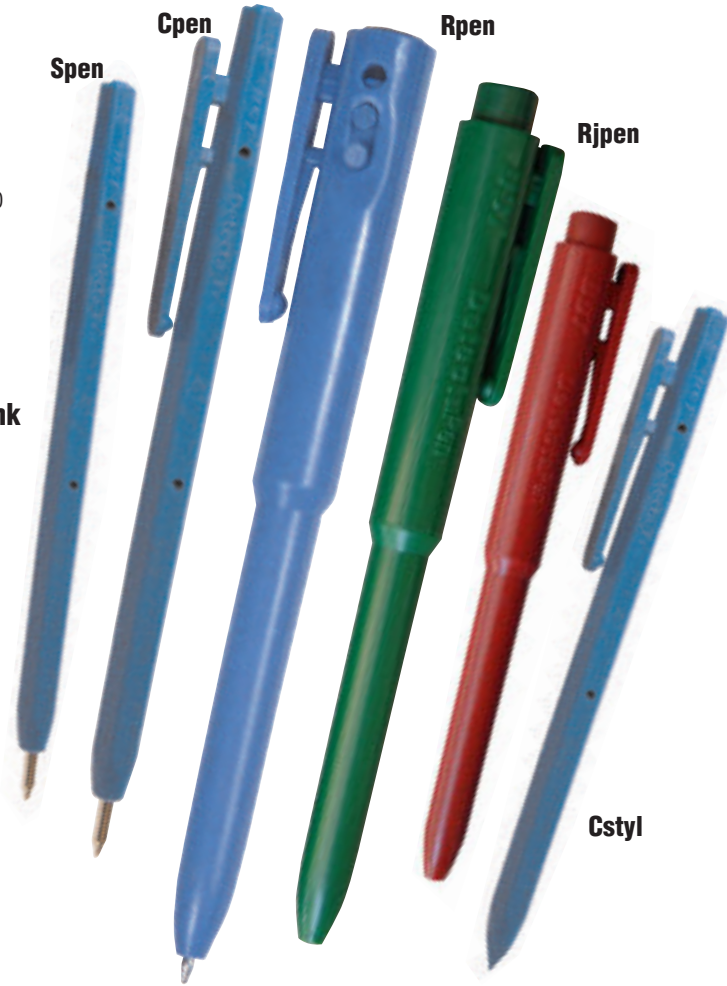

**Model# Spen available in: Blue Body. Black and Blue Ink**

**Cpen** - stick pen with clip.

**Model# Cpen available in: Blue Body. Black, Blue, Green and Red Ink**

**Cstyl** - Computer touch screen stylus.

**Model# Cstyl available in: Blue Body.**

## Detectable Markers

Our detectable line of markers all feature a metal detectable body & cap, constructed out of the same material as our popular pen series. Removable cap fits snugly onto base of marker when in use. If misplaced, pen will write for several days. All ink is non-toxic, xylene free and low odor. All marker bodies are blue.

**'Detecta-Mark' - Permanent Marker**

**Model# Mpen available in: Black, Blue, Green and Red Ink**

**'Detecta-Light' - Hi-lighter Marker**

**Model# Hlpen available in: Yellow, Pink, Blue and Orange Ink**

**'Detecta-Erase' - Dry Erase Marker**

For use on white boards

**Model# Depen available in: Black, Blue, Green and Red Ink**

All products are manufactured in accordance with FDA regulations CFR 21 177.1520 olefin polymers.

# Tags & Labels

**Detectable tags and labels** can be used for variety of applications from marking ingredient bags to labeling capital equipment. There are many styles, sizes, and materials to choose from depending on your needs. They provide excellent detectability and are used to support your foreign objects contamination programs.

- Ideal for multiple ingredients products, ready-to-eat meals, bakery, salads and most other food preparations
- Attaches to bags, trays, boxes, racks and bins
- Available in a variety of styles and colors
- Batch information can be added using computer programs or by hand.
- Printer compatible styles are available
- Meets the performance need of all current metal detectable equipment

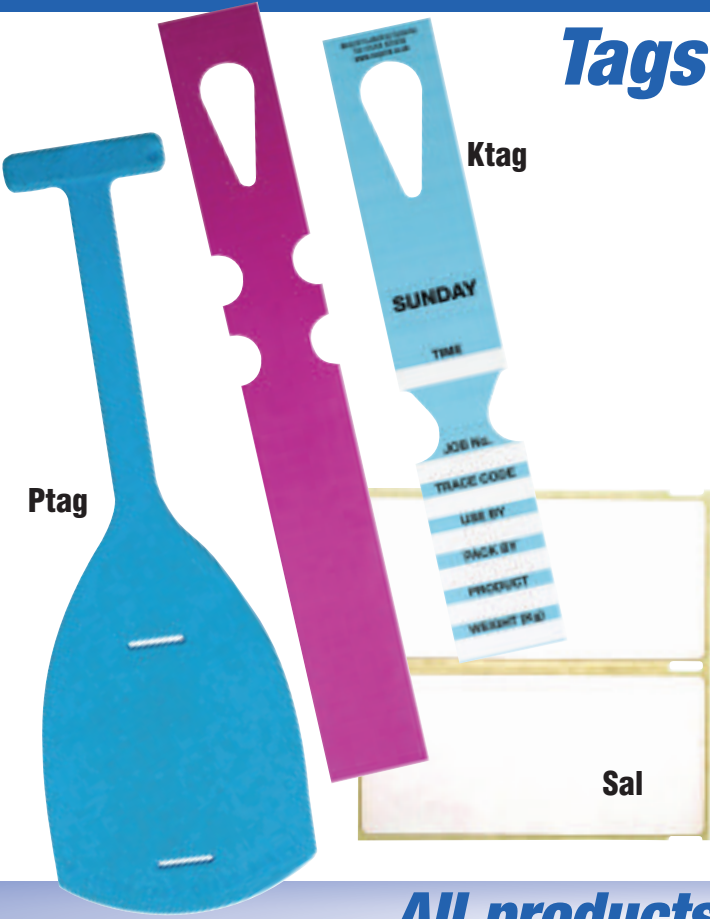

**Model# SAL - Self Adhesive Label**

**Size: 125mm x 60mm**

**Model# Ktag - Key hole tag**

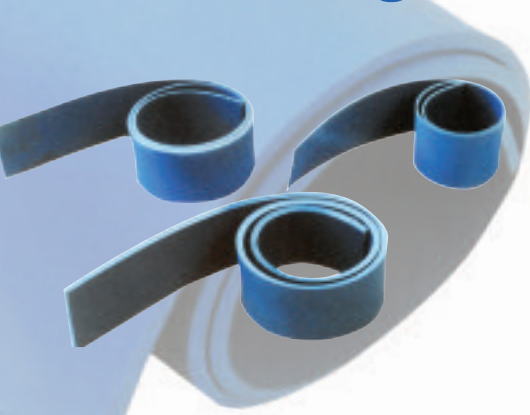

**Sizes: 25mm x 190mm, 45mm x 280mm  
80mm x 305mm, other sizes available**

**Model# Ptag - Permanent Tag**

**All products 100% detectable\***

## Sheeting

**Detectable sheeting** is available in SEBS rubber in thicknesses of 1.5mm, 3mm and 5mm. The SEBS Rubber is ATEX approved and is static dissipative. Sheeting can be used in a variety of applications from cutting gaskets, o-rings, seals or anywhere there is a chance where a rubber part might break down and cause contamination.

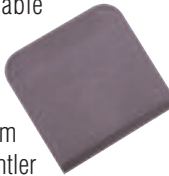

## Scrapers

**Flexible scrapers** are available in 3 thicknesses to best fit your needs. Very Flexible (1.5mm thick), Semi Rigid (2.5mm thick), Rigid (3.5mm thick) Designed to be gentler on expensive equipment.

**MDSCR01, MDSCR02 and MDSCR03**

## \*Stapleless Stapler

This unique stapler creases and folds the paper together, eliminating sharp, potentially dangerous staples from making their way into the production area. Body is not metal detectable.

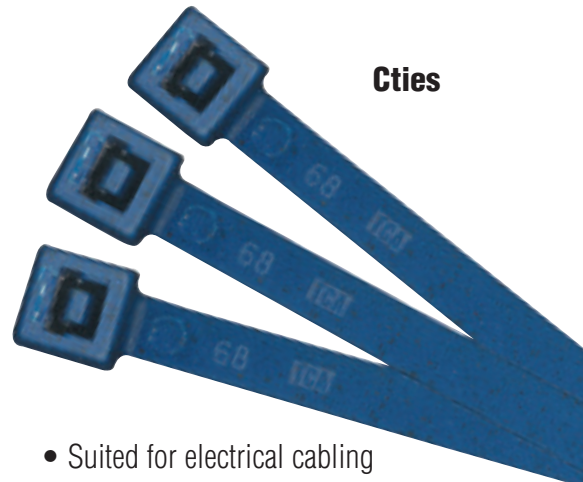

## 1 Litre Jug

**MDJ**

**1 Litre Metal Detectable Pitcher** has litre and ml measurements on side. Entire pitcher is detectable.

## Cable Ties

**Cties**

- Suited for electrical cabling applications in areas adjacent to the manufacturing process
- Ideal for bag and sack tying
- Reduces risk of contamination
- Available in three lengths: 5", 8" and 14"
