

"Build a Bucket" Program

Any of the Majestic thin mils can be specially packaged in sturdy five gallon polyethylene buckets with your own personalized label. The buckets are reusable and meet FDA, NMFC and UFC requirements for a food grade container. Gloves are packed 500 gloves for 4 mil nitrile and latex and 250 gloves for the 8 mil nitrile. Call for details.

Chemical Permeation and Degradation

It is recommended that you perform your own evaluation based on actual working conditions. Most products chemical manufacturers market are a compound or blend of different chemicals.

The first step in selecting any glove is to consult the chemical manufacturers MSDS (Material Safety Data Sheet) for hand protection requirements.

See www.MajesticGlove.com/downloads.htm for permeation and degradation details.

Permeation and degradation charts are intended as a guide only.
