

Universal Features

These self-closing foot or knee-operated valves completely eliminate the possibility of contamination from germ laden or dirty faucets. Columbia valves are made of rough chrome-plated cast brass and stainless steel.

Models ending in S are reinforced with all stainless steel components to withstand extreme usage.

All Models

Series 100 Valves

Design that sets an industry standard.

- Easy lift-up Pedals for cleaning
- All valves are tested at 150 PSI after assembly.
