Maintenance Repair Operations

3M *Innovation*

Front end to back – technology to keep you up and running

MRO Essentials are the highlights of the 3M product line for Maintenance and Repair Operations. These are technologies and products to help keep your business up and running from the lobby to the shipping dock. From

chewing gum remover to vinyl tapes for floor marking, the 3M brand promise is quality for a safer, cleaner, more efficient and reliable operation.

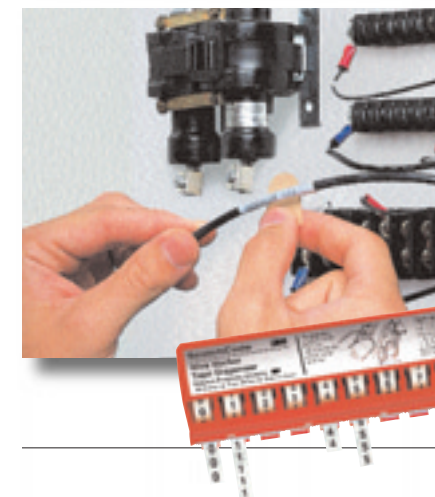

3M Tube Adhesives for Rubber and Plastic Bonding

3M™ Scotch-Grip™ Rubber and Gasket Adhesive 1300 securely bonds and seals most rubber and gaskets to themselves, metal, wood, and many plastics.

3M™ Scotch-Grip™ Plastic Adhesive 4693H quickly bonds and seals many plastics to themselves, metal, wood, and ceramic.

Each squeeze tube is its own lightweight applicator that goes where needed.

Product	UPC # 21200-	Size	Color (dry)	Bonding Range
3M™ Scotch-Grip™ Rubber & Gasket Adhesive 1300	19868-7	5 oz.	Yellow	Up to 12 minutes
3M™ Scotch-Grip™ Plastic Adhesive 4693H	30088-2	5 oz.	Clear	Up to 60 minutes

3M Wire Marking Tape and Dispenser

3M™ ScotchCode™ Tape Dispenser fits in a pocket, toolbox, or hangs on a tool pouch or belt. Stores and dispenses ten 8' rolls of pre-printed 3M tape. Non-smear polyester resists flagging, solvents, oil, and water.

- Mark wire and cable
- Identify terminal blocks and strips
- Mark motor leads
