FlexTech™ Series:

Palm coated gloves

HPPE Shell with PU Palm

- High performance polyethylene fibers (HPPE) with white polyurethane (PU) palm coating
- Provides the best balance of comfort, dexterity, and cut resistance.
- Lint free multifilament yarn is light weight yet 15x stronger than steel.

- ANSI Level 2

Y9266, Sizes XS-XL

HPPE Shell with PU Palm

- FlexTech high performance polyethylene fibers (HPPE) and gray nylon blend with gray palm coating

- Provides a good balance of comfort, dexterity and cut resistance

- Polyurethane palm coating provides excellent grip and tactility

- Launderable for a longer wear life

- ANSI Level 2

Y9265, Sizes XXS-XXL

Y9275, economy, Sizes XS-XXL

Kevlar® Shell with Foam Nitrile Palm

- Light weight stretch Kevlar with black foam nitrile palm coating

- Stretchy Kevlar/Lycra® blend provides high level of dexterity and comfort

- Foam nitrile palm provides excellent grip and resistance to snags and abrasions

- ANSI Level 2

Y9256, Sizes XS-XXL

Kevlar® Shell with Latex Palm

- 100% Kevlar shell with blue latex palm coating

- Combination of Kevlar® lining and latex palm offers increased protection against cuts, slashes & other mechanical hazards

- ANSI Level 2

Y9245, Sizes S-XL

Knit Shell with Full NBR Coating and Nitrile Palm

- Light weight cut resistant knit shell

- Sandy nitrile coated palm and fingertips affords excellent gripping

- Full NBR coating provides an extra layer of protection against liquids

- Provides a good balance of comfort, dexterity and cut resistance

- Offers great flexibility and dexterity

- Liquid resistant

- ANSI level 4

Y9290, Sizes S-XXL

Note: All palm coated gloves are sold by the dozen pair.

FlexTech™ Series:

HPPE, Kevlar®, Poly/Cotton
Palm Dip Gloves

HPPE Shell with PU Palm

- White high performance polyethylene fibers (HPPE) with white polyurethane palm coating
 - Provides the best balance of comfort, dexterity, cut resistance & tactile sensitivity
 - Lint free multifilament yarn is light weight yet 15x stronger than steel and provides resistance to abrasion, moisture & chemicals
 - Palm coating provides excellent
 - ANSI Level 2
- Y9266, Sizes XS-XL

HPPE Shell with PU Palm

- FlexTech high performance polyethylene fibers (HPPE) and gray nylon blend with gray palm coating
 - Provides a good balance of comfort, dexterity and cut resistance
 - Polyurethane palm coating provides excellent grip and tactility
 - Launderable for a longer wear life
 - ANSI Level 2
- Y9265, Sizes XXS-XXL
Y9275, Economy, Sizes XS-XXL

Kevlar Shell with Latex Palm

- 100% Kevlar shell with blue latex palm coating
 - Combination of Kevlar lining and latex palm offers increased protection against cuts, slashes & other mechanical hazards
 - ANSI Level 2
- Y9245, Sizes S-XL

Kevlar Shell with Foam Nitrile Palm

- Light weight stretch Kevlar with black foam nitrile palm coating
 - Stretchy Kevlar/Lycra® blend provides high level of dexterity and comfort
 - Foam nitrile palm provides excellent grip and resistance to snags and abrasions
 - ANSI Level 2
- Y9256, Sizes XS-XXL

Poly/Cotton Shell with Latex Palm

- Gray or white polyester/cotton string knit shell with blue latex palm coating
 - Latex coating offers superior grip and abrasion and puncture resistance
 - Gray color in Y9240-VP conceals dirt
- Y9240-VP, Gray, Sizes XS-XL
Y9243, White (economy version), Sizes S-XL

NOTE: All palm dip gloves are sold by the dozen pair.

The coating generally covers the full palm and partial fingertips.

All palm coated gloves are made from a seamless knit shell for increased comfort and flexibility.

Color coded overedge identifies size

Y9265

The palm is coated in nitrile, foam nitrile, polyurethane and latex, these gloves offer added puncture and slash protection along with extra grip and abrasion resistance.

Why Choose Palm Coated?

- Available in cotton blends for general purpose, high performance polyethylene fibers (HPPE) and Kevlar® for greater cut protection, and light weight nylon for higher dexterity. Coated glove shells provide additional protection in high wear/high risk areas.
- Palm coated gloves provide the confidence to perform. Non-slip surface allows workers to work more efficiently and with greater confidence.
- The open, uncoated back circulates air, allowing hands to 'breathe' and keeping them cool and comfortable. Circulation of air allows for increased comfort.

Applicable industries include glass and sheet metal handling, construction, canning, recycling, lumber, general manufacturing, small parts handling and electronics and precision assembly.
