

# Ultimate Damp Mop #2

## Dilution Control

### DESCRIPTION

This product is a concentrated damp mop cleaner that uses low foaming surfactants and neutral chelating agents to clean all hard surface floors not damaged by damp mopping with water. Chelating agents help suspend solids and salts into solution to prevent filming on floors in high salt areas (sea salt, rock salt). This product is an excellent cleaner that leaves no residue. This product is acceptable for use on toilets and/or in dressing rooms of food processing establishments (formerly USDA Category C2).

### DIRECTIONS

Read the entire container label before using this product.  
Dilution is preset at ½ oz. of product per gallon of water (1:256).  
Sweep and remove dirt from area to be cleaned. Mop floor. Air dry.

**CONCENTRATED: DO NOT USE UNDILUTED**

### FIRST AID

Have the product container or label with you when calling a physician or when going for treatment.

**IF IN EYES:** Immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lenses after 5 minutes, if worn. Get medical attention if irritation develops and persists.

**IF ON SKIN:** Immediately flush skin with soap and water. Call a physician if irritation develops and persists. Remove contaminated clothing and wash before reuse.

**IF SWALLOWED:** Call a physician immediately. Do NOT induce vomiting unless directed to do so by qualified medical personnel. Never give anything by mouth to an unconscious person.

• For additional information, see Material Safety Data Sheet (MSDS) for this material.
