

Specialty Cabinets FOR FLAMMABLES

The first jobsite chest for the storage of flammables!

Protect flammables from ignition sources, misuse or theft by storing them in a specially designed Safety Chest. Only Safesite™ Safety Chests are built to OSHA and NFPA specifications for the safe storage of flammables. They provide protected storage of fuels, paint thinners, solvents, or other flammables typically found at construction and utility jobsites. Easy portability with optional casters also makes them ideal for indoor maintenance and construction locations where solvents and other chemicals are used.

5 CHG U K Q B G V [% J G U V is made with double-wall construction throughout for the storage of flammables.

**General storage chest model is not for flammables, only tools, etc.

Suitable for high risk environments

These cabinets are ideal for use in high risk environments such as construction sites, correctional facilities, schools, maintenance areas, and nurseries/retail locations. In addition to all the standard cabinet features the unique security system includes a high visibility steel barrier bar secured across both doors to deter prying. Padlock holes on crossbar and side bar channel are located on each side of the cabinet, provide double-layered steel strength and accept No. 5 Master Locks. Set of two keyed-alike locks are sold separately.
