

Technical, State-of-the-Art, Progressive

Our innovative respiratory protection products provide technical solutions to customers in the Industrial, Health & Safety and Medical markets in North America and Globally.

State-of-the-Art Manufacturing

We are vertically integrated with our own in-house manufacturing of ultra-fine filter media and fully automated production of disposable respirators at our facility in Middleboro, Massachusetts.

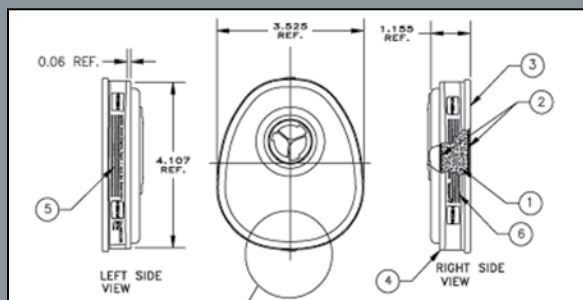

Complete In-house Technical Capabilities

All our Research & Development, Product Design, Testing & Quality Assurance processes are implemented in-house by our talented technical staff.

Global Sourcing Capabilities

We also utilize overseas assembly operations using Gerson-owned & designed equipment where appropriate to remain globally competitive in certain product categories.

Continuous Innovation

We are continually hard at work developing new technologies to keep us on the cutting edge of progressive product development.

Signature Series™ Dual Cartridge Respirators

The Signature line of GERSON respirators offers a full range of NIOSH approved cartridges and particulate filters in both Low Maintenance and Maintenance- Free Half Masks.

Signature Select™ Low Maintenance Respirator Facepiece

Comfort . Quality . Value

- Soft, lightweight elastomeric facepiece, cradle suspension and easy-adjust headstraps facilitate proper and comfortable fit
- Low profile, swept-back design provides greater field of vision and allows normal use of glasses or goggles
- Available in three sizes: Small, Medium and Large

#9100 Small
#9200 Medium
#9300 Large

Packaged: 1 facepiece/bag • 24 bags/case

Replacement Parts for Select Halfmask Facepiece

#220 Head Harness Assembly 10 pack
#228 Replacement Valve Kit (2 inhalation/1 exhalation) 10 sets

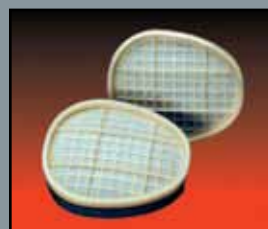

For compliance with
OSHA 1910.134
storage requirements

Hygienic Form Guard™

Signature Series™ Cartridges & Filters:

Gas/Vapor • P100 • Pancake

G01 Organic Vapor
#71481

G02 Acid Gas
#71479

G03 Organic
Vapor/Acid Gas
#71478

G70 P100
Particulate Filter
#71480

2/package • 60 cartridges/case

Fiberglass-free filters are fully compatible with all Gerson Signature Series Cartridge Respirators

G95P
P95 - Particulate Filter effective against all particulate aerosols including oil.

#71916 10/box • 10 boxes/case

172 Filter Retainer
#71620 20/box • 5 boxes/case

Signature Series™ Pancake Filters

- Low profile - fits under welding helmet
- Low breathing resistance
- Light-weight but extra durable
- Improved, easy-to-use, twist-on mounting

XP100

P100 Particulate Filter, effective against all particulate aerosols.
#XP100 2/package • 100 filters/case

#XP100 OV/AG 2/package • 100 filters/case

Effective against all particulate aerosols, plus Nuisance odor, Acid Gas, Hydrogen Fluoride and Ozone.

Particulate Respirators

Nuisance dust mask

- Dust Mask
- Does not provide NIOSH Approved respiratory protection

#1501 50/box, 600/case

D.I.Y. Respiratory Products

Gerson Safety Products are also available for the Do-It-Yourself market in attractively designed bright blue packages. Packed in quality blister packs for easy point-of-purchase display, they are sturdy enough to last through continued customer inspections and offer the retailer a broad array of competitively priced products to meet most any safety need.

Signature Select™ Low Maintenance Respirators and Replacement Cartridges

P100 Respirator

1 Assembled Respirator/Blister
#71514 10/case

P100 Replacement Kit

1501 Nuisance Dust Mask (Not NIOSH Approved)

5 masks/card
#061501C 12 cards/case

N95 cup-style molded Particulate Respirator

- NIOSH N95 Approved Particulate Respirator
- Also available with CE FFP1 and FFP2 D Approvals
- Quality Made in USA
- Made with Gerson-proprietary USA-made filtration media
- Highest quality, durable double-shell construction resists crushing, provides long life and extra durability in hot, humid conditions
- Ultrasonically welded latex-free head band
- Smooth, comfortable foam nose cushion

#1730 20/box, 240/case

#1735 20/box, 240/case: FDA 510K Approved.

N95 cup-style molded Particulate Respirator with exhalation valve

- NIOSH N95 Approved Particulate Respirator
- Patent-pending Comfort Maxx Valve provide exceptionally low exhalation pressure and greater comfort
- Also available with CE FFP1 and FFP2 D Approvals
- Quality Made in USA
- Made with Gerson-proprietary USA-made filtration media
- Highest quality, durable double-shell construction resists crushing, provides long life and extra durability in hot, humid conditions
- Ultrasonically welded latex-free head band
- Smooth, comfortable foam nose cushion

#1740 10/box, 100/case

R95 Respirator w/exhalation valve - Recommended for Welding Applications

- R95 NIOSH Approved Respirator with Comfort Maxx Exhalation Valve for exceptionally low exhalation pressure and greater comfort
- Flame retardant outer shell covers filter media; ideal for welding applications
- Long-lasting, heavy-duty, adjustable headstraps
- Full closed cell foam face seal cushion offers increased comfort

#1840 5/box, 100/case

Signature One-Step™ Maintenance-Free

Signature One-Step™ Maintenance-Free Half Mask Respirators come completely and *permanently assembled* with organic vapor cartridges and P95 particulate filters. Packaged in resealable zip-lock foil bag.

- Ready to use. No spare parts to stock. No cartridges to replace. Simplifies inventory requirements
- Reduces record keeping necessary for OSHA compliance
- Soft, lightweight elastomeric facepiece, cradle suspension and easy-adjust headstraps facilitate proper and comfortable fit
- Available in three sizes: Small, Medium and Large

Organic Vapor/ P95 Filter	#8111P	Small

	#8311P	Large

Qualitative Fit Test Kits

To simplify and satisfy the requirements of your respiratory protection program, Gerson offers a choice of two easy-to-use qualitative fit test kits - Saccharin or Bitrex. Each kit contains: one fit test hood, one bottle of "fit test" solution, one bottle of "sensitivity" solution, one "fit test" nebulizer, one "sensitivity" nebulizer, two sets of replacement nebulizer inserts and complete step-by-step instructions.

QLFT-50 Saccharin Qualitative Fit Test Kit
#065000 1 Kit/case

QLFT-60 Bitrex™ Qualitative Fit Test Kit
#066000 1 Kit/case

QLFT-51 Saccharin Sensitivity Solution
#065100 6 Kits/case

QLFT-52 Saccharin Fit Test Solution
#065200 6 Kits/case

QLFT-61 Bitrex™ Sensitivity Solution
#066100 6 Kits/case

QLFT-62 Bitrex™ Test Solution
#066200 6 Kits/case

QLFT-53 Test Kit Nebulizer
#065300 3 Kits/case

QLFT-54 Test Hood
#065400-10 10 Kits/case

- Replacement Components and Solutions Available
- Quantitative Fit Test Respirators Available
- "Train the Trainer" Program and Fit Testing Certificates Available

GERSON[®] Smart-Mask™: Performance, Comfort and Convenience beyond traditional cup-style respirators

- Patented 3-D technology provides an away-from-the-face, cup style respirator that folds flat for easy carrying and convenience
- Side panels provide 40% greater surface area and 40% lower breathing resistance compared to traditional cup-style respirators
- Made with Gerson's proprietary, USA-made filter media
- Unique design is free of uncomfortable pressure points
- Large, smooth and comfortable closed-cell-foam nose cushion
- Staple-free, ultrasonically welded latex-free head band.
- FDA, 510 K Approved Model 2130
- Fluid Resistant: Passes 160 HG Fluid Resistant Standard
- Available in individual, sealed hygienic packages Ideal for EMTs and First Responders
- Available Comfort Maxx™ super-valve for extraordinary comfort
- Available in full range of NIOSH and CE Approvals

N95 Smart-Mask™ foldable Particulate Respirator

- N95 NIOSH Approved Particulate Respirator
- Smart-Mask™ 3-D design folds flat for easy storage and portability yet opens up for away from the face comfort
- Electrostatically charged Gerson-proprietary USA-made filtration media for better breathing and filtration
- Soft, comfortable outer layer and durable, ultrasonically welded latex-free head band

#2130C **cupped and nested 20/box, 200/case**

#2130W **individually wrapped 20/box, 200/case**

N95 Smart-Mask™ foldable Particulate Respirator w/exhalation valve

#2140C **cupped and nested 10/box, 100/case**
#2140W **individually wrapped 10/box, 100/case**

N100 Smart-Mask™ foldable Particulate Respirator w/exhalation valve

- N100 NIOSH Approved Particulate Respirator with Exhalation Valve
- Smart-Mask™ 3-D design folds flat for easy storage and portability yet opens up for away from the face comfort
- Electrostatically charged Gerson-proprietary USA-made filtration media for better breathing and filtration
- Soft, comfortable outer layer and durable, ultrasonically welded latex-free head band

#2181C **braided strap, cupped and nested 10/box, 100/case**

#2185 **adjustable straps, 1 bag, 20 bags/case**

GERSON[®] Smart-Mask™: Performance, Comfort and Convenience beyond traditional cup-style respirators (cont.)

N95 Smart-Mask™ foldable Particulate Respirator PLUS Nuisance odor, Acid Gas, Hydrogen Flouride and Ozone Relief

- N95 NIOSH Approved Particulate Respirator plus relief from the irritating effects of nuisance levels of organic vapor, odor, acid gas, hydrogen fluoride and ozone
- Smart-Mask™ 3-D design folds flat for easy storage and portability yet opens up for away from the face comfort
- Electrostatically charged Gerson-proprietary USA-made filtration media for better breathing and filtration
- Soft, comfortable outer layer and durable, ultrasonically welded latex-free head band
- Full range of CE approvals available

#2130OV/AG **cupped and nested 20/box, 200/case**

P95 Smart-Mask™ foldable Particulate Respirator w/exhalation valve

- P95 NIOSH Approved Particulate Respirator with Exhalation Valve
- Approved for all oil and solid particulates
- Smart-Mask™ 3-D design folds flat for easy storage and portability yet opens up for away from the face comfort
- Electrostatically charged Gerson-proprietary filtration media for better breathing and filtration
- Soft, comfortable outer layer and durable, ultrasonically welded latex-free head band

#2340 **cupped and nested 10/box, 100/case**

P95 Smart-Mask™ foldable Particulate Respirator w/exhalation valve PLUS Nuisance Odor, Acid Gas, Hydrogen Flouride and Ozone Relief

- P95 NIOSH Approved Particulate Respirator with Exhalation Valve, plus relief from the irritating effects of nuisance levels of organic vapor, odor, acid gas, hydrogen fluoride and ozone
- Approved for all oil and solid particulates
- Smart-Mask™ 3-D design folds flat for easy storage and portability yet opens up for away from the face comfort
- Electrostatically charged Gerson-proprietary USA-made filtration media for better breathing and filtration
- Soft, comfortable outer layer and durable, ultrasonically welded latex-free head band
- Full range of CE approvals available

#2340OV/AG **cupped and nested 10/box, 100/case**
