Metal Detectable Plastic & Woven Bandages

Multiple Styles – Highly Detectable

A complete line of bandages that cover all minor first aid and medical needs... Plus they're metal detectable! These highly visible and sterile bandages are perfectly recognizable in case of loss within the food processing and pharmaceutical industries. These bandages contain foil for quick detection by most x-ray and metal detectors used in industry today. *Please Note:* It is recommended that a bandage sample be tested for metal detectability before use within your own systems. All bandages are latex free.

Features & Benefits

- Foil strip make bandages highly detectable
- Hi-Vis blue for visual detectability
- Sterile, individually wrapped

Application

- Food processing plants
- Restaurants
- Pharmaceutical processing sites
- Hospitality industries
- Catering companies
- School & corporate cafeterias

ITEM DESCRIPTION	SIZE	BOX PKG.	CASE PKG.	BULK PKG.
Plastic Strip Bandage	1" x 3"	100/bx (.15 lbs)	24bx/cs (3.6 lbs)	3500 (5.5 lbs)
Woven Strip Bandage	1" x 3"	100/bx (.20 lbs)	24bx/cs (4.8 lbs)	3500 (7.25 lbs)
Woven Fingertip Bandage	1.75" x 2"	50/bx (.10 lbs)	20bx/cs (2.0 lbs)	3500 (7.25 lbs)
Woven Knuckle Bandage	1.5" x 3"	50/bx (.15 lbs)	24bx/cs (3.6 lbs)	3500 (10.5 lbs)

Metal Detectable Cable Ties

Available In Multiple Sizes & Colors

These cable ties were designed for the food and beverage processing industries to meet safety standards set by HACCP (Hazard Analysis and Critical Control Point) to minimize the risk of contamination. These detectable cable ties are nylon-based with metal content dispersed throughout the entire tie including the head. A unique manufacturing process involving the inclusion of a metallic pigment enables even small "cut-off" sections of the tie to be detected by standard metal detection and X-ray equipment. The unique colors assists in the visual detection and greatly reduces the risk of contamination and costly recalls. The Metal Detectable ties comes in 6", 8", 10", and 15" lengths. These flexible cable ties have a curved tip for easy application. The 15" length cable ties are available in blue, green, orange, red and yellow. The 10" cable tie is releasable for reuse.

Features & Benefits

- Suited for electrical cabling and conduit application in areas adjacent to the manufacturing and conveyor processes
- Ideal for ingredient bag & sack tying
- Greatly reduces risk of contamination
- Variety of color to assist in detection
- Multiple colors choices to assist in detection by department or process
- X-Ray visible
- 100 Per Pack – All sizes
