LOCK LUBRICANT

No. 2300D

- Designed specifically for padlocks, door locks, automotive, marine, and multipurpose applications
- Keep your locks operating like new in any environment – Snow, rain, freezing temperatures, marine, extreme heat
- Designed specifically for precision lock components – prevents rust, corrosion, and loosens stuck parts
- Precision Nozzle – Designed specifically for precise application inside locking devices
- Synthetic oil with PTFE formula – Provides a long lasting protective shield against dust, dirt, salt and moisture
- Outstanding temperature range – Synthetic formula operates in cold weather (-45°F) when mineral based aerosols will not. Prevents water build up & freezing lock components
- Non-toxic & biodegradable – Better for the environment
- Prolong the life of your lock – Apply 2-3 drops in key hole and shackle openings every three to six months for trouble free operation
