

White Polypropylene Head Cover Hood

This Polypropylene Head Cover Hood can be used for a range of light industrial purposes. An elastic band ensures a comfortable fit, keeping the hood securely in position all day long. Suitable for use in food handling environments, the balaclava-style hood can also be used in laboratories or for protection when carrying out maintenance and other manual work.

- Meets FDA food handling standards
- Manufactured from lightweight polypropylene
- Disposable for convenience
- No slippage even with extended use
- Balaclava style provides hygienic solution
